

# Today's air quality forecast is

# GREEN

**Air pollution is not forecast to be a health problem.**

**Do your part to keep our air clean by taking the following steps to reduce transportation-related air pollution emissions:**

- Carpool or vanpool for the work commute.
- Use the bus or MetroLink whenever possible.
- Avoid vehicle idling.
- Walk or bike for short trips.
- Visit MoDOT's Gateway Guide website at [www.gatewayguide.com](http://www.gatewayguide.com) for real-time traffic information to plan your route to avoid traffic tie-ups and construction zones.
- Combine errands into a single trip, rather than making multiple short trips that release more pollution into the air.
- Brown bag lunch rather than driving to a local restaurant. Short car trips release more pollution into our air.
